Journal of PHOTOCHEMISTRY AND PHOTOBIOLOGY A:CHEMISTRY

Subject Index of Volume 88

Aberchrome 540™
  photokinetic study on the photochromic reaction of Aberchrome 540™: a further comment about the use of Aberchrome 540™ in chemical actinometry, 31
Absorbance
  spectroscopic behaviour of the dye safranine T in aqueous polyethylene glycol medium, 139
Acid-base interaction
  acid–base interaction of 2,3-dimethyl-6-phenylimidazo-[1,2-b]-1,2,4-triazine in the ground and excited states, 129
Acid–base processes
  aminopyrido[2,3-c]-1,2,6-thiadiazine 2,2-dioxides as laser dyes, 35
Aminoacridine
  photoinduced formation of 9-diarylaminoacridines from diarylamines and tetrabromomethane: reaction mechanism, 15
Ammonia
  an investigation of the putative photosynthesis of ammonia on iron-doped titania and other metal oxides, 53
Association parameters
  the association parameters of bromide and iodide ions with cationic micelles using steady state fluorescence quenching measurements, 147
Atrazine
  kinetics of the UV degradation of atrazine in aqueous solution in the presence of hydrogen peroxide, 65

Bianthryl
  fluorescence and intersystem crossing from the twisted intramolecular charge transfer (TICT) state of bianthryl in the presence of inorganic ions in polar solvents, 93
Binding isotherm
  spectroscopic behaviour of the dye safranine T in aqueous polyethylene glycol medium, 139
Broadband lasers
  aminopyrido[2,3-c]-1,2,6-thiadiazine 2,2-dioxides as laser dyes, 35
Bromide ions
  the association parameters of bromide and iodide ions with cationic micelles using steady state fluorescence quenching measurements, 147

C_{60}
  photoconductivity of C_{60}-doped phthalocyanine composites, 179
Carbazole
  determination of pK^* in excited state proton transfer (ESPT) reaction: a rearrangement of Weller's equation; advantage of dual luminescence, 1
Cationic micelles
  the association parameters of bromide and iodide ions with cationic micelles using steady state fluorescence quenching measurements, 147

CBr_4
  photoinduced formation of 9-diarylaminoacridines from diarylamines and tetrabromomethane: reaction mechanism, 15
Charge transfer complex
  photoinduced formation of 9-diarylaminoacridines from diarylamines and tetrabromomethane: reaction mechanism, 15
Charge transfer complexes
  photoconductivity of C_{60}-doped phthalocyanine composites, 179
Chemical actinometry
  photokinetic study on the photochromic reaction of Aberchrome 540™: a further comment about the use of Aberchrome 540™ in chemical actinometry, 31
Correlation analysis
  should the dual-parameter equation be used in the correlation analysis of fluorescence spectral data of substituted styrenes and α-methylstyrenes?, 11
Cu_2O photocathodes
  the effect of methyl viologen ion on photocurrent and stability of Cu_2O photocathodes in I^-/I_3^- redox electrolyte, 39
β-Cyclodextrin
  dual luminescence of dimethylaminobenzaldehyde in aqueous β-cyclodextrin: non-polar and TICT emissions, 105
  effect of cyclodextrin inclusion complex formation on the twisted intramolecular charge transfer (TICT) of the included compound: the *p*-dimethylaminobenzoic acid–β-cyclodextrin system, 109
Cyclopentylideneacetaldehyde
  base-induced photochemical reaction of cyclopentylideneacetaldehyde tosylhydrazone, 19

Diarylamine
  photoinduced formation of 9-diarylaminoacridines from diarylamines and tetrabromomethane: reaction mechanism, 15
Dibenzoylmethanatoboron difluoride
  solvent effects on photocycloadditions of dibenzoylmethanatoboron difluoride with enol ethers, 125
2,3-Dimethyl-6-phenylimidazo-[1,2-b]-1,2,4-triazine
  acid–base interaction of 2,3-dimethyl-6-phenylimidazo-[1,2-b]-1,2,4-triazine in the ground and excited states, 129
Dimethylaminobenzaldehyde
  dual luminescence of dimethylaminobenzaldehyde in aqueous β-cyclodextrin: non-polar and TICT emissions, 105
Dual fluorescence
  effect of cyclodextrin inclusion complex formation on the twisted intramolecular charge transfer (TICT) of the included compound: the *p*-dimethylaminobenzoic acid–β-cyclodextrin system, 109
Dual luminescence
  determination of pK^* in excited state proton transfer (ESPT) reaction: a rearrangement of Weller's equation; advantage of dual luminescence, 1
  dual luminescence of dimethylaminobenzaldehyde in aqueous β-cyclodextrin: non-polar and TICT emissions, 105

Elsevier Science S.A.

Dual-parameter equation
should the dual-parameter equation be used in the correlation analysis of fluorescence spectral data of substituted styrenes and α-methylstyrenes?, 11
Dye lasers
aminopyrido[2,3-c]-1,2,6-thiadiazine 2,2-dioxides as laser dyes, 35
Dyes
photochemistry of semiconductor particles. 5. Location of dyes in reverse micelles containing TiO_2 nanoparticles and effects on photoinduced interfacial electron transfer, 47

Electron transfer
fluorescence and intersystem crossing from the twisted intramolecular charge transfer (TICT) state of bianthryl in the presence of inorganic ions in polar solvents, 93
Enol ethers
solvent effects on photocycloadditions of dibenzoylmethanatoboron difluoride with enol ethers, 125
Equilibrium constants
determination of pK^* in excited state proton transfer (ESPT) reaction: a rearrangement of Weller's equation; advantage of dual luminescence, 1
Excited state
acid–base interaction of 2,3-dimethyl-6-phenylimidazo-[1,2-b]-1,2,4-triazine in the ground and excited states, 129
Excited state proton transfer
determination of pK^* in excited state proton transfer (ESPT) reaction: a rearrangement of Weller's equation; advantage of dual luminescence, 1

Fluorescence
spectroscopic behaviour of the dye safranine T in aqueous polyethylene glycol medium, 139
Fluorescence quantum yields
properties of singlet excited *N*-(pyrimidin-2-one-4-yl)pyridinium chloride and structurally related organic cations, 117
Fluorescence quenching
fluorescence and intersystem crossing from the twisted intramolecular charge transfer (TICT) state of bianthryl in the presence of inorganic ions in polar solvents, 93
the association parameters of bromide and iodide ions with cationic micelles using steady state fluorescence quenching measurements, 147
Fluorescence spectra
should the dual-parameter equation be used in the correlation analysis of fluorescence spectral data of substituted styrenes and α-methylstyrenes?, 11
properties of singlet excited *N*-(pyrimidin-2-one-4-yl)pyridinium chloride and structurally related organic cations, 117

Ground state
acid–base interaction of 2,3-dimethyl-6-phenylimidazo-[1,2-b]-1,2,4-triazine in the ground and excited states, 129

Heavy-atom effect
fluorescence and intersystem crossing from the twisted intramolecular charge transfer (TICT) state of bianthryl in the presence of inorganic ions in polar solvents, 93
3H-Indole
solubilization of a 3*H*-indole molecular probe in surfactant micelles and vesicles: a spectral and photophysical study, 153
Hydrogen peroxide
kinetics of the UV degradation of atrazine in aqueous solution in the presence of hydrogen peroxide, 65

Intermolecular proton transfer
aminopyrido[2,3-c]-1,2,6-thiadiazine 2,2-dioxides as laser dyes, 35
Intersystem crossing
fluorescence and intersystem crossing from the twisted intramolecular charge transfer (TICT) state of bianthryl in the presence of inorganic ions in polar solvents, 93
Iodide ions
the association parameters of bromide and iodide ions with cationic micelles using steady state fluorescence quenching measurements, 147
Iron-doped titania
an investigation of the putative photosynthesis of ammonia on iron-doped titania and other metal oxides, 53

Kinetic study
kinetics of the UV degradation of atrazine in aqueous solution in the presence of hydrogen peroxide, 65

Lifetimes
properties of singlet excited *N*-(pyrimidin-2-one-4-yl)pyridinium chloride and structurally related organic cations, 117
Luminescence
quenching by unsaturated ferrocene and ferrocenium derivatives of the luminescence of $Ru(phen)_3^{2+}$, 81

Metal oxides
an investigation of the putative photosynthesis of ammonia on iron-doped titania and other metal oxides, 53
Methylene blue
study on TiO_2-mediated photocatalytic degradation of methylene blue, 163
Methyl viologen ion
the effect of methyl viologen ion on photocurrent and stability of Cu_2O photocathodes in I^-/I_3^- redox electrolyte, 39
Micelles
solubilization of a 3*H*-indole molecular probe in surfactant micelles and vesicles: a spectral and photophysical study, 153
Multifrequency lasers
aminopyrido[2,3-c]-1,2,6-thiadiazine 2,2-dioxides as laser dyes, 35

Non-polar emission
dual luminescence of dimethylaminobenzaldehyde in aqueous β-cyclodextrin: non-polar and TICT emissions, 105
Non-vertical transfer
triplet energy accepting properties of styrenes: examination of the relationship between the degree of "non-vertical" behaviour and the magnitude of a specific single-bond torsional angle, 5

Organic cations
properties of singlet excited *N*-(pyrimidin-2-one-4-yl)pyridinium chloride and structurally related organic cations, 117
Oxidation
auto-sensitized oxidation of Ru(II) complexes. I. Studies on the stability of two Ru(II) complexes ($[Ru(NH_3)_5NCPy–R]^{3+}$, $R \equiv CH_3$ and $C_6H_5CH_2$) in a medium containing singlet oxygen, 85

p-Dimethylaminobenzoic acid
effect of cyclodextrin inclusion complex formation on the twisted intramolecular charge transfer (TICT) of the included compound: the *p*-dimethylaminobenzoic acid–β-cyclodextrin system, 109

Perchloroethylene
heterogeneous photocatalytic oxidation of dilute toluene–chlorocarbon mixtures in air, 169
Pesticides
kinetics of the UV degradation of atrazine in aqueous solution in the presence of hydrogen peroxide, 65
Phenoxynaphthacenequinone derivative
synthesis and photochromism in solution of phenoxynaphthacenequinone derivatives, 23
Photocatalysis
study on TiO_2-mediated photocatalytic degradation of methylene blue, 163
Photocatalytic oxidation
heterogeneous photocatalytic oxidation of dilute toluene–chlorocarbon mixtures in air, 169
Photochemical reaction
base-induced photochemical reaction of cyclopentylideneacetaldehyde tosylhydrazone, 19
Photochromic reaction
photokinetic study on the photochromic reaction of Aberchrome 540™: a further comment about the use of Aberchrome 540™ in chemical actinometry, 31
Photochromism
synthesis and photochromism in solution of phenoxynaphthacenequinone derivatives, 23
Photoconductivity
photoconductivity study on silicon dichloride phthalocyanine, 43
photoconductivity of C_{60}-doped phthalocyanine composites, 179
synthesis and photoconductivity study of VK–AA copolymer containing CuPc, 183
Photocurrent
the effect of methyl viologen ion on photocurrent and stability of Cu_2O photocathodes in I^-/I_3^- redox electrolyte, 39
Photocycloaddition
solvent effects on photocycloadditions of dibenzoylmethanatoboron difluoride with enol ethers, 125
Photoinduced interfacial electron transfer
photochemistry of semiconductor particles. 5. Location of dyes in reverse micelles containing TiO_2 nanoparticles and effects on photoinduced interfacial electron transfer, 47
Photoinduced reaction
photoinduced formation of 9-diarylaminoacridines from diarylamines and tetrabromomethane: reaction mechanism, 15
Photokinetics
photokinetic study on the photochromic reaction of Aberchrome 540™: a further comment about the use of Aberchrome 540™ in chemical actinometry, 31
Photo-oxidation
kinetics of the UV degradation of atrazine in aqueous solution in the presence of hydrogen peroxide, 65
Phthalocyanine polymer
synthesis and photoconductivity study of VK–AA copolymer containing CuPc, 183
Polyethylene glycol
spectroscopic behaviour of the dye safranine T in aqueous polyethylene glycol medium, 139
Putative photosynthesis
an investigation of the putative photosynthesis of ammonia on iron-doped titania and other metal oxides, 53

Quenching
quenching by unsaturated ferrocene and ferrocenium derivatives of the luminescence of $Ru(phen)_3^{2+}$, 81

Reaction mechanism
photoinduced formation of 9-diarylaminoacridines from diarylamines and tetrabromomethane: reaction mechanism, 15
Redox electrolyte
the effect of methyl viologen ion on photocurrent and stability of Cu_2O photocathodes in I^-/I_3^- redox electrolyte, 39
Reverse micelles
photochemistry of semiconductor particles. 5. Location of dyes in reverse micelles containing TiO_2 nanoparticles and effects on photoinduced interfacial electron transfer, 47
Ru(II) complexes
auto-sensitized oxidation of Ru(II) complexes. I. Studies on the stability of two Ru(II) complexes ($[Ru(NH_3)_5NCPy–R]^{3+}$, $R \equiv CH_3$ and $C_6H_5CH_2$) in a medium containing singlet oxygen, 85

Safranine T
spectroscopic behaviour of the dye safranine T in aqueous polyethylene glycol medium, 139
Sandroz plots
triplet energy accepting properties of styrenes: examination of the relationship between the degree of "non-vertical" behaviour and the magnitude of a specific single-bond torsional angle, 5
Semiconductor particles
photochemistry of semiconductor particles. 5. Location of dyes in reverse micelles containing TiO_2 nanoparticles and effects on photoinduced interfacial electron transfer, 47
Sensitization
auto-sensitized oxidation of Ru(II) complexes. I. Studies on the stability of two Ru(II) complexes ($[Ru(NH_3)_5NCPy–R]^{3+}$, $R \equiv CH_3$ and $C_6H_5CH_2$) in a medium containing singlet oxygen, 85
Silicon dichloride phthalocyanine
photoconductivity study on silicon dichloride phthalocyanine, 43
Singlet excited state
properties of singlet excited *N*-(pyrimidin-2-one-4-yl)pyridinium chloride and structurally related organic cations, 117
Singlet oxygen
auto-sensitized oxidation of Ru(II) complexes. I. Studies on the stability of two Ru(II) complexes ($[Ru(NH_3)_5NCPy–R]^{3+}$, $R \equiv CH_3$ and $C_6H_5CH_2$) in a medium containing singlet oxygen, 85
Solubilization
solubilization of a 3*H*-indole molecular probe in surfactant micelles and vesicles: a spectral and photophysical study, 153
Solvent effects
solvent effects on photocycloadditions of dibenzoylmethanatoboron difluoride with enol ethers, 125
Solvent parameters
spectroscopic behaviour of the dye safranine T in aqueous polyethylene glycol medium, 139
Stability
the effect of methyl viologen ion on photocurrent and stability of Cu_2O photocathodes in I^-/I_3^- redox electrolyte, 39
Styrenes
triplet energy accepting properties of styrenes: examination of the relationship between the degree of "non-vertical" behaviour and the magnitude of a specific single-bond torsional angle, 5
should the dual-parameter equation be used in the correlation analysis of fluorescence spectral data of substituted styrenes and α-methylstyrenes?, 11
Supramolecular inclusion complex
effect of cyclodextrin inclusion complex formation on the twisted intramolecular charge transfer (TICT) of the in-

cluded compound: the *p*-dimethylaminobenzoic acid–β-cyclodextrin system, 109

TICT emission
dual luminescence of dimethylaminobenzaldehyde in aqueous β-cyclodextrin: non-polar and TICT emissions, 105
TiO_2
study on TiO_2-mediated photocatalytic degradation of methylene blue, 163
Toluene
heterogeneous photocatalytic oxidation of dilute toluene–chlorocarbon mixtures in air, 169
Tosylhydrazone
base-induced photochemical reaction of cyclopentylideneacetaldehyde tosylhydrazone, 19
Trichloropropene
heterogeneous photocatalytic oxidation of dilute toluene–chlorocarbon mixtures in air, 169
Triplet energy transfer
triplet energy accepting properties of styrenes: examination of the relationship between the degree of "non-vertical" behaviour and the magnitude of a specific single-bond torsional angle, 5
Triplet state
triplet energy accepting properties of styrenes: examination of the relationship between the degree of "non-vertical" behaviour and the magnitude of a specific single-bond torsional angle, 5
Twisted intramolecular charge transfer
effect of cyclodextrin inclusion complex formation on the twisted intramolecular charge transfer (TICT) of the included compound: the *p*-dimethylaminobenzoic acid–β-cyclodextrin system, 109
Twisted intramolecular charge transfer states
fluorescence and intersystem crossing from the twisted intramolecular charge transfer (TICT) state of bianthryl in the presence of inorganic ions in polar solvents, 93

UV absorption
properties of singlet excited *N*-(pyrimidin-2-one-4-yl)pyridinium chloride and structurally related organic cations, 117
UV radiation
kinetics of the UV degradation of atrazine in aqueous solution in the presence of hydrogen peroxide, 65

Vesicles
solubilization of a 3*H*-indole molecular probe in surfactant micelles and vesicles: a spectral and photophysical study, 153

Zinc phthalocyanine
photoconductivity of C_{60}-doped phthalocyanine composites, 179
